Workplace
Communication

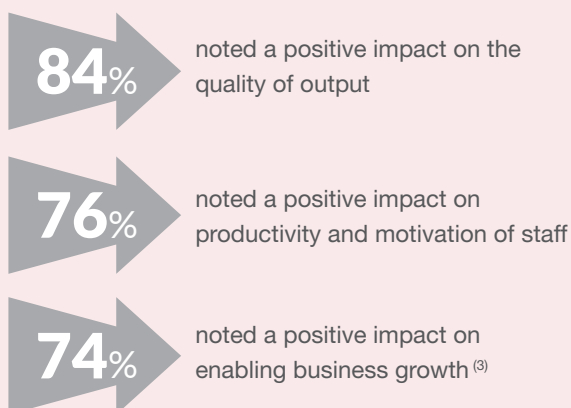

How could it benefit your business?

- ✓ Improved Health & Safety Compliance
- ✓ Improved comprehension of Health & Safety policies and procedures
- ✓ Increase in understanding of Health & Safety forms and their correct use
- ✓ Increase in staff confidence to speak up about hazards
- ✓ Improved workplace understanding of Health & Safety signage/notices

Results from previous programmes.

Of those businesses who engaged in Workplace Communication training

“Due to their improved confidence, the guys feel more comfortable asking for assistance. They are also now involved in hazard ID, safety assessment and developing controls to manage risks. Senior Managers are being approached with ideas and useful suggestions are being offered on how to make the workplace safer.”

Health & Safety Manager - Construction Company

Aspire2 Business is the largest provider of Workplace Communication programmes in New Zealand, operating nationally for over twelve years.
